

Grade Point Average

The GPA at the University of Ballarat is determined according to the following formula:

$$\text{GPA} = \frac{\Sigma(\text{GP})}{\Sigma(\text{P})}$$

Where

Σ = sum of

G = numerical value of final result grade in each unit

P = credit point value of each unit

The summation is undertaken for all units attempted while enrolled in the course. Units for which credit has been granted for studies or prior learning done outside the course, are excluded from the calculation. S/U and XN grades are also excluded from the calculation.

The numerical values assigned to grades for all units attempted in the course in which a student is enrolled are as follows:

High Distinction (HD)	= 7
Distinction (D)	= 6
Credit (C)	= 5
Pass (P)	= 4
Fail Level 1 (MN)	= 3
Fail Level 2 (NN)	= 1.5
