HOME SUSTAINABILITY ASSESSMENT PROGRAM

2009

HOME SUSTAINABILITY ASSESSMENT PROGRAM

Code 21854VIC HSA

8 Days Training
includes:

This program provides training for students to become Home Sustainability Assessors. Students will be able to provide assistance and advice to people on how to implement sustainable practices in their homes.

Program Pre-requisites

Participants should be able to undertake simple measurements, read metres and analyse utility bills.

This program will suit Horticulturalists, Landscapers, Tradespeople, Financial Counsellors and staff from water retailers and councils, who provide advice to householders.

This program has national registration. Upon successful completion of this program you will receive a Statement of Attainment which will enable you to be listed on the Sustainability Victoria website as an approved assessor.

Don't blow it!
Good Planets
are hard to find.
